

Petition Opposing Amendment to La Jolla Planned District Ordinance Re: Increased Density

We, the undersigned citizens of La Jolla, oppose any amendment to increase density in the Village and Bird Rock, including the recent proposal to increase floor-area ratios by 30% and permit construction of three-story buildings within the current height limits. Such amendments would erode the high quality of life La Jolla offers, lead to the loss of unique Village architecture, increase congestion and traffic dramatically, and burden our infrastructure, including our streets and schools.

Please use this sheet as a template. Copy as many copies as you can manage and have your friends, acquaintances, people you meet, fill in one line each. Call No Third Story in La Jolla at 858-456-1264 to find out where to take completed sheets, or leave a message and we'll come pick them up. Completed petitions will be presented to the decision-making bodies, including the City of San Diego to let the Mayor and Council know the will of the residents of La Jolla. Thank you for your help! See our website at www.nothirdstory.org
